EXPERIENCE

• Front End Intern.

Jun 2025 – July 2025
On-site

- Designed the front end of the Project Monitoring Software for Haryana Vidyut Prasaran Nigam Limited. The software has the functionality of monitoring the progress during construction of the Transmission works. The interactive design developed by me helped the management in effective monitoring of the projects.
- Designed the front end of the Quality Assurance of the Application for the Haryana Vidyut Prasaran Nigam Limited. The interactive front end designed helped the organization in monitoring the Quality assurance in execution of the transmission works.

PROJECTS

- Developed a responsive and modern portfolio website using HTML, CSS, and JavaScript. Designed interactive UI sections with creative layouts, animations, and aesthetic styling. Enhanced frontend development skills by building reusable components and visually appealing elements. Successfully deployed and hosted the project using Netlify. <https://vocal-fudge-5c15d6.netlify.app/>.
- Designed and developed the layout for the “Bella Vista” website with a modern and responsive user interface. Created visually appealing web pages using HTML, CSS, and JavaScript with a focus on user experience. Implemented responsive design techniques to ensure compatibility across desktop. Worked on website structure, navigation, and aesthetic styling to enhance usability and engagement. Demonstrated frontend development skills by building a clean and interactive real-world web project. <https://lnkd.in/gBndziSv/>.
- Designed the front end of the Project Monitoring Software for Haryana Vidyut Prasaran Nigam Limited. The software has the functionality of monitoring the progress during construction of the Transmission works.
